Project: Update the school's wall of presidents to a more permanent and impressive installation.

Solution: The prior installation was paper prints in various levels of decay and unmatched frames. Paper itself has short shelf life and this installation was important enough to warrant a major upgrade. The materials we used are the same as our Hackettstown Regional Medical Center Doctor's Wall - fine art photo embedded metal prints overlaid on glass. The photo embedded metal prints and the glass wall will last indefinitely.

As part of our process we retouched all the historical photos that could be retouched to really beautiful quality status. The end product here is an homage to the Presidents of St. Francis and the history of St. Francis College.

It is also an homage to St. Francis' commitment to recognition and branding building.
