Memorial Recognition

Project: To create an elegant and respectful recognition system to honor the medical center's deceased doctors.

Solution: The system developed here has been admired by many and we have been asked to use this format as a basis for other memorial and honorial recognition installations.

As you look at the piece you see the logo, text and caduceus all deep carved into the glass and color filled. Then there are 81 metal dedication plaques with 46 finished and 35 blank. The beauty of the system is all the plaques are magnetically applied. The piece always looks finished and updates are a snap.
