Project: Provide an easy to update and eye catching installation for their annual donor campaign.

Solution: For this installation we provided one of our custom made runners-walls. These walls are hand finished wood runners holding glass panels and mounted prints that can be easily updated. The look is that of fine carved glass but at the cost of a paper print. The prints are photo quality acetates that allow full color photographs and clear text to be printed side by side.

Updates are nothing more than ordering two new prints. Rather than taking down and replacing hundreds of plaques yearly our client has an installation process that takes under 10 minutes with a costs structure that is fixed year to year.
