Project: Create two annual donor recognition walls and one major donors Legacy wall.

Solution: When we designed these donor walls for St. Francis they had been our client for over 10 years. This project was the fifth one we undertook for them. By this time we had established standards in place. We understood their look as traditional with a modern bent. We proceeded to create two updateable donor walls with printed acetates and photography. The major donors Legacy wall was brass plaques on a wood frame and 3 photo embedded metal images. The two annual walls face each other in a pass-through hallway that leads into a major corridor where the Legacy wall is mounted. The experience of the three walls is quite impressive and expresses the vast donor support St. Francis enjoys.
